SUMMARY

Aspiring UI/UX Designer with a curious mind and a creative heart, currently pursuing MCA. I specialize in transforming complex ideas into clean, user-friendly designs that speak to real user needs. With hands-on skills in Figma, HTML, and CSS, I blend design thinking with technical know-how to craft digital experiences that are both beautiful and functional. Eager to shape intuitive interfaces that make technology feel effortless.

SKILLS

Design Tools: Figma, Adobe XD, Sketch (basic)

Front-End Technologies: HTML5, CSS3, Bootstrap, JavaScript (basic)

Prototyping & Wireframing: Figma.

Design Principles: User-Centered Design, Responsive Design, Accessibility

PROJECTS

Online Jewellery Shop

Dec 2022 - Apr 2023

HTML, CSS, Bootstrap, PHP

Designed and developed a fully responsive online jewellery shopping website with an elegant UI and smooth user experience. Implemented user-friendly navigation, product listings, and a cart system using PHP. Focused on visual appeal and usability to align with the aesthetics of luxury e-commerce.
